Jennifer Eichmeier, Superintendent/Elementary Principal

March 20, 2020

Greetings North Central Families,

The recent pandemic has brought much uncertainty in our fast paced world and even more uncertainty for our schools. There are many unanswered questions and at this time no additional guidance as to whether the days will be made up or waived.

We at North Central are committed to providing our students with the best education. Thank you for filling out the internet survey. This will help us in planning if we are asked to provide online learning.

I want to stress that if we need to change our plans due to changes in legislation and/or executive orders, I ask for your understanding. The information we are receiving is coming in very fast in some instances and some, very slow.

Thank you for your patience as we continue to navigate through uncharted waters. We will continue to update our school community as we are given a clearer picture of how to proceed within the law.

If you are **not** receiving Bright Arrow alerts, please contact one of our offices so we can update your phone number or email. If you received the internet survey and food service survey, your Bright Arrow alerts **are active and working**, and you do not need to do anything.

Please continue to visit our website, and Facebook page for additional educational enrichment.

Your Partner in Education,

Jennifer J. Eichmeier

Superintendent
